

**EasyLine®**

## **MYA-1-IC1 Inspection Conveyor 1 driven section**

### **FUNCTION**

Used for automatic transferring of a printed circuit board along a production line with stop and release function for inspecting the board under transfer.

### **TECHNICAL FEATURES**

- Selector: inspection / passthrough
- Push-button for PCB releasing
- Transport: ESD flat belt
- N.1 24V DC driven section, fixed speed
- Equipped with photoelectric sensor
- Manual width adjustment system
- Direction of flow: left to right
- Interface: standard SMEMA
- Module length: 600mm

### **OPTIONS**

- Non-SMEMA interface
- Right-to-left flow direction
- Special ESD finishing
- Module length 1000mm
- 24VDC motor variable speed
- Any SMEMA cable length
